Claim Rejections - 35 USC § 112

Claim 4-6 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

With respect to Claim 4, line 8, the phrase "fixed shaft" lacks antecedent basis. It appears that the word "shaft" should be replaced with the word --pipe--.

Claim 6 is vague and indefinite. On line 3, the phrase "magnets provided at circumferential intervals determined..." is unclear. Are the magnets provided at circumferential intervals of the hollow core pipe or are the provided on the wound material or the outer periphery of the hollow core pipe?

Allowable Subject Matter

Claims 1-3 and 7-9 are allowed.

Response to Arguments

Applicant's arguments with respect to claims 1-9 have been considered but are moot in view of the new ground(s) of rejection.
